

VITALI

ARTEX € EL

ARTEX € AIR

Artex € embodies a new conception of dental unit: it is the perfect match between simplicity and functionality. Artex € is equipped with a water unit with integrated nurse's console that can be opened at 90°. Its left-hand version is available.

Moreover, there are two different available foot controls: electronic, which can manage the electric micromotor; and simplified with double lever for the usage of pneumatic instruments.

Available versions:

Continental: 4 instruments, with balanced instrument armrests and limit stop.

Available colours: 

Available options:

AIR

Simplified foot control with two levers controlling the instruments, it cannot manage the electric micromotor.

EL

Electronic foot control managing the electric micromotor.
